

Funding Analysis Overview

I&S Community Resource Planning staff can assist you in finding potential funding resources for your business or organization. There are a number of grants, loans, and tax credits available that meet a variety of needs. In order to understand what programs may be the most beneficial to you, we are offering a Funding Analysis Overview based upon your areas of need and interest. Upon completion of the following information, we will provide you a customized Funding Analysis Overview within three (3) business days. The analysis will include an individualized report summarizing the potential grants that best fit your situation.
