

I&S Group is a certified TSP in both Minnesota and Wisconsin and has provided services in 16 Minnesota Counties

At I&S Group, we understand that every dollar invested at your facility is important. As your certified NRCS Technical Service Provider (TSP), we strive to provide cost effective facilities that require a minimum amount of maintenance, all while providing the benefits of utilizing a certified TSP. These benefits include providing high quality service that you can be assured meets all applicable requirements, are designed in accordance with NRCS standards, and are eligible for reimbursement through the NRCS.

To meet all your needs as a producer, we maintain certification in a large number of eligible services, detailed below. Since the inception of the program, we have provided design and construction services for over 36 manure storage structures, basins, and compost buildings alone. For further information on the services we provide, please contact one of our agricultural specialists listed below.
