

MUNICIPAL PLANNING

There is a significant amount of effort and extensive knowledge necessary to efficiently and effectively plan for the growth and success of a municipality. From long-term planning to implementation, ISG provides creative, expert planning and design solutions for our municipal clients.

Our planners, designers and engineers work collaboratively with our municipal clients to ensure that their economic development, infrastructure and sustainability goals and needs are met with integrated, effective solutions. ISG offers a broad suite of services for municipalities including important planning for areas such as land use, transportation improvements, stormwater management, funding assistance and capital improvement programming.

With a proven track record of engaging the community, building consensus and providing innovative solutions, ISG has helped municipalities across the Upper Midwest visualize and responsibly accomplish their strategic initiatives and build and maintain vital infrastructure. The end result of this collaborative effort is the community is able to deliver daily services with confidence and success.
