Agricultural Drainage
Experience in
Minnesota and Iowa

ISG + DRAINAGE

Importance of Drainage

- Most of Minnesota needs artificial drainage to support agriculture
- Minnesota Drainage Statutes
1800's: developed
1900's: refined
- 1900's to 1920's numerous public drainage systems were constructed
- 10,000+ public drainage systems in Minnesota, and many more private ditch and tile systems
